

Thank you to you, your teachers, Head, TAs and children for hosting the invasion visit for our PGCE students. They have learned a lot from you. I am including below just a bit of the feedback we have had.

I hope we can come next year!

Gina

The staff and children were really friendly and welcoming.

It was really interesting observing maths and English lessons in year 4. I really liked the idea of having maths and SPaG mastery workbooks, which contain starter activities of similar work covered in the previous term and am considering using those in my own classroom.

I was extremely happy with the welcome I was given, along with a prompt sheet to accompany me for the day. I was able to see books, and discuss the year with the class's TA.

This school was a lovely, welcoming school.

I felt I was very warmly welcomed when visiting the school, all teachers and teaching assistants were very friendly and approachable. My teacher in year 2 offered me help and advice throughout the day and took my email address to send me some phonics resources. I feel it was a good opportunity for me to experience a new school and work with different children.

Overall it was a very worthwhile day at a lovely school

I was in year 2 throughout the day and found-observing phonics extremely useful. The teacher taught this in a way I have never seen before, which was really interesting to see. Maths was also interesting to observe and taught me a range of activities you can do with pupils.

I found the experience to be beneficial as this gave me experience in other years that I have not been able to gain much experience in. I was able to learn about varying teaching methods, classroom layouts and resources that could be used to benefit children's learning and development.

The school was lovely and welcoming and everyone was super friendly.
