

23rd March 2018

Dear Kent Lise,

Please take care with our young, little yellow, fluffy ducks. They need plenty of clean, fresh water and food. The ducks like to eat oats and greens, but DO NOT let visitors feed them bread! You have to clean out the old sand just because it will be all mucky and it will have poo on it. You should also change the water because it probably has sand just in it. The ducks like to swim so they need a pond. You don't need a fence because pekin ducks can't fly. Our ducks need a hot heat lamp because their MUM isn't there to keep them warm. When you hold them don't squeeze them too tight.

Your Young Faithfuls

23rd March 2018

Dear Kent / Lisa People,

please take so much care of
out ducks they very very
very cute. They will need
fresh water and straw and
fresh water. please please
please remember to clean
out their cage. They need
lots of love so they aren't
scared. Make sure NO ONE
GIVES THEM BREAD. don't
worry if they go bald
that just means their
feathers are going
to turn white. Is their
beak is RRP that duck
is a girl and is
her beak is orange that
duck is a boy. Is you
would like to hold them
don't hold them to tight
otherwise you would squash
them and don't hold them
to tight so they would
easily JUMP out and
escape.
