

Safeguarding Review April 2018

With safeguarding such a high priority here at the school we recently asked a specialist advisor from KCC to carry out another review. You may have noticed that our bike racks have been re-allocated to outside the kitchen. This is following a recommendation from our review and is to ensure that the green gates are closed at all times.

During our review morning drop off of pupils was observed, they toured our school site, spoke to the Designated Safeguarding Lead team (including myself) and also spoke to a new member of staff plus a number of children. The review was carried out by the same KCC Area Safeguarding Advisor as before and I should like to share with you her closing comments:

'I hope this review was helpful to Burham Primary School. Again, I want to express how pleased I was to see the high level of Safeguarding practice at Burham Primary School. All children and members of staff spoken to had nothing but praise for the school, which shows a positive and safe culture.'
