

## Penguin Class Homework Project

Due Friday 24<sup>th</sup> January 2020

This term, we will be studying the fantastic topic of **'Water: Why is our Planet Blue?'** in our Creative Curriculum lessons. This is such a vast topic, so there will be lots of different areas to explore. We will be looking at the five oceans; identifying seas and rivers. We are making water wheels in DT and looking at how water has been painted by famous artists Monet, Seurat, Turner and Hokusai's (The Great Wave of Kanagawa). We are going to investigate the importance of clean water and how to keep our oceans clean.

Your child's homework project for the next two weeks will be to research any aspect of water either from the areas mentioned above so they have some prior knowledge or something different that interests your child.

The homework project can be presented in any way they wish (i.e. a model, poster, video, newspaper report, PowerPoint, Word, artwork, quiz). We are always amazed at the effort that goes into producing these projects and they are a welcome addition to the school corridors and display boards!

Your child will present their project to the rest of the class during Creative Curriculum lessons. They should be able to talk about the facts they have found out and share their learning with others.

If there are any problems please do not hesitate to contact me.

I look forward to seeing your projects,

Mrs Attubato
